

The Bow & Mallow, the newest addition to the marshmallow arsenal, is sure to hit the mark. The Bow & Mallow is perfect for summer play. As the name implies, this new toy takes the form of a Bow & Arrow and with each pull of the bow string hurls mini-marshmallows up to 30 feet.

Magazines from the original Marshmallow Shooter can be used interchangeably with those of the Bow & Mallow to give even more rapid fire action. Pairing the Bow & Mallow with the Shooter and Blaster launches a new century twist on the age old game of Cowboys & Indians.
