

Noblesville Parks and Recreation Classes

Registration: <https://scoutingevent.com/160-ParksandRec> **Fees vary depending on class

Tigers in the Wild

Saturday, September 7, 2019 / 11:00-12:30 PM

You are about to go on a hike. What should you take along? Water is always a good idea, but what else? What if you see some animal tracks along the way? How can you tell if a mountain lion or squirrel made them? What kinds of trees are around you? On this adventure, you will learn how to be a Tiger in the wild! Participants will go home with their own essentials kit.

Level: Tiger **Class Location:** Forest Park Lodge

Tiger Tag

Saturday, September 7, 2019 / 3:30-5:00 PM

Playing games are so much fun and this belt loop will let us do just that. We will talk about being active while we learn to work as a team. How to handle winning and losing when playing a game. Talk about how important it is to have fun when we play games.

Level: Tiger **Class Location:** Forest Park Lodge

Games Tigers Play

Saturday, September 7, 2019 / 9:00-10:30 AM

We will learn team building skills while having fun playing games. Each Tiger will learn to use different parts of his body to help the team move a ball from one place to another, come up with an idea for a new game to play, and make a healthy snack. We will talk about why it is healthy to stay active.

Level: Tiger **Class Location:** Forest Park Lodge

Curiosity, Intrigue & Magical Mysteries

Saturday, September 7, 2019 / 1:30-3:00 PM

The unknown has a special and confounding allure. In this badge, we will look to solve the unsolvable to learn about the mysteries within and use that knowledge to amaze our friends and family. We will learn several magic tricks, have an opportunity to perform them with other Cub Scouts, create secret codes, decipher other secret codes, conduct a "magic" science demonstration, and gain the skills to explain the science behind the "magic."

Level: Tiger **Class Location:** Forest Park Lodge

Make it Move

Saturday, October 5, 2019 / 9:00-10:30 AM

Making things move takes a lot of effort. Machines can make movement much easier! In this event, create an exploding stick reaction, make two different types of pulleys to lift heavy objects, discover leverage thru creating levers, and map out and build a Rube Goldberg machine.

Level: Bear **Class Location:** Ivy Tech Noblesville

Roaring Laughter

Saturday, October 5, 2019 / 11:00-12:30 PM

Come and learn how laughing helps your body stay healthy. We will learn some tongue twisters, tell silly stories, find out what makes us laugh and play a game that makes us laugh and feel good.

Level: Bear **Class Location:** Ivy Tech Noblesville

Super Science

Saturday, October 5, 2019 / 1:30-3:00 PM

Have you ever wondered why the sky is blue or how gravity works or what makes a rainbow? Scientists wonder about those things, too. In this adventure, you'll get to do some science projects that are a little bit messy and a lot a bit amazing. We will make static electricity and conduct several investigations, complete a sink-or-float investigation, learn about color-morphing, and perform a color-layering experiment. So put on your lab coat and get ready to do some super science!

Level: Bear **Class Location:** Ivy Tech Noblesville

Running with the Pack

Saturday, December 7, 2019 / 9:00-11:30 AM

On this adventure we will learn how to throw and catch a ball, balance as we walk forward, backwards and sideways, practice flexibility and balance, plan a health meal, make a shopping list for this meal, and play a sport while working on good sportsmanship.

Level: Wolf **Class Location:** Ivy Tech Noblesville

Germ

Saturday, December 7, 2019 / 12:30-2:00 PM

Do you like gross stuff? Then this adventure is for you. Come and learn how the body has good and bad germs. We will play a germ magnet game, make fake mucus, grow a mold culture, talk about why it's important to keep your room clean, make a chore chart, and learn the proper way to wash hands.

Level: Wolf **Class Location:** Ivy Tech Noblesville

Motor Away

Saturday, December 7, 2019 / 2:30-4:00 PM

Planes, boats, and automobiles – we move in a lot of ways by motors. In this program, we will understand how all of these vehicles are possible. We will create a variety of paper airplanes and make deductions about which will fly the furthest, make two different types of boats and sail them, and design our own cars that move under its own power.

Level: Wolf **Class Location:** Ivy Tech Noblesville
