Re: Concessions and Community Service

Fellow Scouting Leaders,

I am very excited to be a part of the spectacular changes at the Indianapolis Speedrome! I have been working out the details with Jonathan Byrd (General Manager) of various ways that the Scouts can be involved with events over the course of the racing season.

Before making official details of our plans public I wanted to have a firm grasp on the details of what manpower we needed as well as the finite details of turning this into a rewarding experience for both the Scouts and the Speedrome.

September 16<sup>th</sup> will be Scout night at the Speedrome. It is being added as a Circuit of Fun event. Details will be forthcoming from council.

There is availability for Scouting Troops to profit from **assisting in the concessions area**. They encourage the parents and troop to work as a team. **Much like the Indianapolis 500 with many churches/booster clubs/non-profits, only adults with beverage permits are allowed to be involved in any sales of alcohol.** A check will be written to the Troop account.

I am coordinating the manpower for **The Speedrome Community Service** project. **This is open to Cub and Boy Scouts.** After each race there is obviously a lot of trash to be picked up. Rather than hire a crew, we are seeking the help of packs and troops. Adults helping with trash will receive, like those assisting in the concessions, an hourly amount that will go to the pack or troop account. Pack/Troop **Scouts** will earn community **service hours**.

After the Speedrome is cleaned the Scouts will earn a complimentary ticket to any future race this season. After 12 hours of community service the Scouts will earn a special Speedrome Community Service patch. Again, adult hours will be in the form of a check to the pack/troop.

If you have any questions, or are interested in assisting with any of the races this season, please call **Shelley Bates at 317-586-5086.**
